

Intern Cohorts from 2015-2018

The following tables will provide accurate and current information for potential interns and current interns about UCR's health service internship program. First, you will find information for the last three recruitment years and the applicant pool. Second, there will be information about the admission requirements for potential interns who are interested in applying to our program. Third, this table will highlight the benefits that interns will receive while they are on internship. Finally, we have outlined the post-internship positions of the past three cohorts.

	2015-2016	2016-2017	2017-2018
